## Contents of Volume 5 1987/1988

### Number 1 1987

**Newsline** ..... 2

**Calendar** ..... 5

**Editorial** ..... 7

K. Saito, A. Namba, K. Aso, N. Abe, J. Nagai, and A. Ejima
**New Manufacturing Techniques of Large Forged Shell Rings for Pressure Vessels** ..... 9

J.H. Eckler and T.C. Wilkinson
**Processing and Designing Parts Using Structural Reaction Injection Moulding** ..... 17

I. Haque, J.E. Jackson Jr., T. Gangjee, and A. Raikar
**Empirical and Finite Element Approaches to Forging Die Design: A State-of-the-Art Survey** ..... 23

T.W. Penrice
**Alternative Binders for Hard Metals** ..... 35

D.G. Taggart and F.J. Schwan
**Evaluation of Woven Fabric Composites for Automotive Applications** ..... 41

D.L. Bourell and H.J. McQueen
**Thermomechanical Processing of Iron, Titanium, and Zirconium Alloys in the BCC Structure** ..... 53

**Selected Abstracts of Materials Literature—October 1986–January 1987** ..... 75

### Number 2 1987

**Erratum** ..... 90

**Newsline** ..... 91

**Calendar** ..... 93

B.L. Ferguson
**Commentary: The Mechanical Working and Forming Division of ASM INTERNATIONAL** ..... 95

B.L. Ferguson, H.A. Kuhn, and J. Trasorras
**Expert Software Concepts for Design of P/M Preforms for Precision Forging** ..... 97

K.-K. Chen
**A New Finite Element Method for Binder Wrap Calculations** ..... 107

F. Sassani and N. Sepehri
**Prediction of Spread in Hot Flat Rolling under Variable Geometry Conditions** ..... 117

Y.G. Wang and X.M. Yin
**Analysis of Parameters and Microcomputer Control for the Electric Upsetting Process for Forging Engine Valves** ..... 125

D.K. Dasgupta
**Deformation and Interface Contact Friction in Metal Shearing Using Inclined Knife Profiles** ..... 133

**Selected Abstracts of Metalworking Literature—February 1987–June 1987** ..... 143

Number 3 1988

**Newsline** ..... 156

**Calendar** ..... 159

H.J. McQueen and D.L. Bourell
**Thermomechanical Processing of Titanium, Zirconium, Magnesium, and Zinc in the HCP Structure** ..... 163

G. Garib, C. Vial, F. Negroni, and E.G. Thomsen
**Friction Studies of Tough Pitch Copper Using a Hollow Punch-Torque Method** ..... 191

A. Royer
**Horizontal Centrifugation: A Technique of Foundry Well Adapted to the Processing of High Reliability Pieces** ..... 197

**Selected Abstracts of Materials Literature—June 1987–July 1987** ..... 211

---

Number 4 1988

**Newsline** ..... 216

**Calendar** ..... 219

D. Bhattacharyya, W.R. Thorpe, and M.J. Painter
**Residual Stress Prediction in Large Autobody Panels** ..... 221

H. Yaguchi and D. Bhattacharya
**An Investigation of Factors Controlling Part Growth and Surface Finish of Form Tools in the Automatic Screw Machine Test** ..... 231

V.K. Jain, L.E. Matson, H.L. Gegel, and R. Srinivasan
**Physical Modeling of Metalworking Processes—I: Determination of Large Plastic Strains** ..... 243

V.K. Jain, L.E. Matson, H.L. Gegel, and R. Srinivasan
**Physical Modeling of Metalworking Processes—II: Comparison of Visioplastic Modeling and Computer Simulation** ..... 249

R. Shivpuri, P.S. Raghupathi, and T. Altan
**Characteristics of Forming Presses and Recent Developments for Precision and Net Shape Forming** ..... 259

**Selected Abstracts of Materials Literature—August 1987** ..... 269

**Index to Volume 5**

---
